EDUCATION

San Francisco de Sales

10/2015 – 06/2020

Bachelor of Science

Bootcamp SoyHenry

02/2022 – 08/2022

Full Stack Web Developer

Relevant Courses: Uneweb Programming Diploma, English Course (CVA), certifications in Javascript, PHP, JQuery, HTML, CSS, and React.

SKILLS

Programming Languages: JavaScript, TypeScript.

Technologies: CSS, HTML, React, NextJS, SQL, PostgreSQL, MongoDB, Prisma, Node.js, Redux, Tailwind, Bootstrap, Material UI, Shadcn, Next UI, Sequelize, Figma, Scrum, Git.

PROFESSIONAL EXPERIENCE

NextGO

Miami, Florida, USA

Full Stack Web Developer

September 2022 – June 2023

- Comprehensive Platform for the Automotive Industry: Led the design and development of a complete application for sales, administration, and commerce of vehicles. Highlighted the integration of new technologies, including TypeScript and React libraries like Material UI, to optimize functionality and user interface.
- Banking Project for Invoice Management: Contributed to the interface design and full-stack development of a comprehensive banking system. Assumed key roles in front-end, infrastructure, backend, and database, showcasing versatility and adaptability crucial to the project's success. The project was delivered on time and within budget, earning praise for its usability and functionality.
- **Technologies:** HTML/CSS, Express, NodeJS, React, Redux, NextJS, Javascript, Typescript, PostgreSQL, Material UI, Vercel, AWS, Heroku, MongoDB.

SoyHenry

Buenos Aires, Argentina

Full Stack Web Developer

February 2022 – August 2022

- Development of Flight Sales Portal: Led the design and development of a flight ticket sales portal, excelling in the implementation of technologies such as React, Redux, and Node.js. Achieved a robust and user-friendly application covering various roles and functions.
- **Technologies:** HTML/CSS, Express, NodeJS, React, Javascript, PostgreSQL, Material UI, Vercel, Heroku.

PROJECTS

E-commerce Airlines

SoyHenry 03 Jul 2022 – 12 Aug 2022

- Successfully designed and developed an application serving as a flight ticket sales portal, integrating functionalities for users with different roles, including guest, user, admin, and superadmin. My goal was to maximize functionality and usability to provide an optimal consumer experience.
- **Technologies:** HTML/CSS, Express, NodeJS, React, Redux, Javascript, PostgreSQL, Material UI, Vercel, Heroku, Firebase.

Tuestuchef

Freelancer 07 Dec 2023 – 14 Mar 2024

- I developed an ecommerce project dedicated to selling clothing and services for chefs, ranging from aprons and filipinas to shoes and specialized tools. The platform offers a minimalist and user-friendly experience, with an intuitive and efficient purchasing system that simplifies navigation and product selection. Additionally, I implemented a robust email management system and an additional interface for administrators, enabling effective platform management and business operation tracking.
- **Technologies:** HTML/CSS, React, NextJS, React Query, Shadcn, Typescript, Tailwind, Prisma, Vercel, Railway.

Davivienda

NextGo 27 Dec 2022 – 15 Apr 2023

- In my role as a full-stack developer, I led the interface design for a banking system enabling users with specific roles (payer, provider, and factor) to perform various tasks, from invoice CRUD to anticipation, management, and verification of invoices.
- Collaborated closely with a colleague to develop the front-end, incorporating specific features for national and international banks.
- **Technologies:** HTML/CSS, Express, NodeJS, React, NextJS, Javascript, Typescript, PostgreSQL, Material UI, Vercel, AWS, Heroku, MongoDB.

LANGUAGES

- English B2 – Intermediate.
- Spanish – Native.
